“The easiest way to create Virtual Tour by yourself”

Instructions nr.: 1

1. Download the 360° panoramic pictures already cut

Go on <http://easy.panora.eu/> and, below the “Instructions nr. 1” preview, click on the link Download the 360° pictures and save them on your computer.

2. easyPANORA: create the Virtual Tour

You can write names only with small letters and numbers (never use capital letters, spaces or other symbols).

Go on <http://easy.panora.eu/>, “Create an account”, Log-in from Homepage.

Click “Create a new Virtual Tour”, write a name for it and add the panoramic pictures you have just downloaded with the order you want they appear in the Virtual Tour, giving them a name (Pic. 1).

Click on the button, in the bottom of the page, “Create a new Virtual Tour”.

After some seconds of files processing, when the Virtual Tour is ready, click “See the Virtual Tour”.

In few minutes you'll receive also the Virtual Tour link by email.
